Front-End Developer

I am a passionate Frontend Developer skilled in HTML, CSS, JavaScript, and modern frameworks like React. I specialize in creating responsive, user-friendly web applications with a focus on design and accessibility. I thrive in collaborative environments, working closely with cross-functional teams to deliver high-quality solutions. Constantly learning and adapting to new technologies, I am dedicated to producing impactful and innovative frontend experiences.

SOFTSKILLS

- | | |
|-----------------------|------------------------|
| - TeamWork | - Attention to details |
| - Continuous Learning | - Organization |
| - Time Management | - Flexibility |

PROJECTS

Portfolio →

This App developed by Next.js, Motion, and Tailwind CSS. This app effectively showcases a comprehensive gallery of my work, highlighting my skills in frontend development and contemporary web technologies.

The application offers a thorough overview of my expertise, demonstrating my capabilities in frontend development and familiarity with modern web technologies.

CRUD App →

I developed it using Next.js, Tailwind CSS, and Redux. The application allows users to perform the basic operations on data: Create, Read, Update and Delete through an advanced and dynamic user interface.

Key Features:

- A responsive and user-friendly interface designed with Tailwind CSS.
- Utilizing Next.js capabilities to create dynamic pages that reflect real-time changes in data.
- Organizing and displaying data in a clear and structured manner for users.

This app for data management that offers a smooth and modern user experience using the latest web development technologies.

Weather App →

This app aims to give users the essential weather details they need to plan their day smoothly and effortlessly.

Key Features:

- Today's Weather Forecast: Detailed information on the current temperature, sky conditions, humidity, and wind speed for the day.
- Real-Time Updates: Regularly updated data to ensure you have the most current information at any time.
